MICHIGAN DESIGN PRIZE 2021 CHALLENGE:

Design a game, an interactive craft or project, or a toy that helps create fun and meaningful engagement with friends or family during times of social distancing. Meaningful engagement can be through safe in person activities, virtual engagement, car to car, door to door, snail mail, etc.

Submission Deadline June 11, 2021.

Submissions require a physical product solution-concept (versus a service, website design, etc.)

Entrant determines the level of "finish" of the conceptual entry. A prototype is not required for submission. Two-dimensional visualization, images of prototypes, or a combination are acceptable, and encouraged.

Focus on the quality of the idea versus the sophistication of the entry.

Both functionality and beauty are critical aspects of great industrial design solutions.

All entry descriptions must be in English. For your description we recommend a clear and concise description of your designs merits, and applicability to the Michigan Design Prize challenge. The Michigan Design Council reserves the right to edit these descriptions (and images) for clarity and/or reasonable standards of good taste.

Entrants may also submit video to verbally answer the required components of the entry, and/or to help explain their concept (see Upload tab at the bottom of the entry form).

Write a 50-word description (synopsis) of your concept:

0/50

What specific aspect of the 2020 challenge statement, or user-need, are you addressing?

Who is the target user or market for your design solution?

What is unique about your design solution?

How does your design solution enhance the quality of life, or improve the human condition for Michigan residents, and society at large?

How does the aesthetic of your design enhance the emotional enjoyment of using the product?

What technologies, materials, or manufacturing processes are used in your design solution?

Explain the design process you used to develop your concept:

Designer's Bio:
